

## **David Marshall, Spectra-Physics, a Newport Corporation Company**

### ***Bio***

David Marshall is the Senior Regulatory Compliance Engineer, and Laser Safety Officer for Spectra-Physics. In his nearly 40 year career with Spectra-Physics, he has had many different and diverse job titles, such as: Glass Blower, Vacuum Technician, Laser Technician, Manufacturing Engineer, Quality and Vendor Quality Engineer, Regulatory Compliance Engineer, and Laser Safety Officer since 1992.

### ***Abstract***

#### **Addressing Laser Safety in Manufacturing and R&D Environments**

My presentation will focus on the types of things that Spectra-Physics has incorporated into our facility, our employee training, and into the way we document our manufacturing processes to insure that laser safety requirements are always prevalent and adhered to in every aspect of the way we do business.
